

ZAPP Circular no. 39

Content

1. Changes “Bremer Schuppen”

The ZAPP Circular no. 39 provides information about changes concerning the ZAPP application arising from current requirements of the customs.

1. Changes „Bremer Schuppen“

At present, several packing companies in Bremen are able to receive releases for presentations of B- and S-numbers.

According to requirements of the customs office Hamburg AG30 the following changes enter into force:

- B- and S-numbers shall only receive a release after the Gate-In at a presentation location in Hamburg.
- A Gate-In of presentation locations outside of Hamburg will not be processed in ZAPP for B- and S-numbers.

Declarations for B- and S-numbers under naming a shed outside of Hamburg are still possible but a release is only being assigned after the presentation in Hamburg.

These changes are planned to be activated 20th of January 2022.
